1. FUN001 Presentation management

1. FUN001_CP01 Deleted presentations are kept in the bin

- **Type:** Regression.
- **Priority:** Medium.
- **Browser and Operative System:** Google Chrome and Windows 10.
- **Pre-conditions:** A verified account already registered on the app.
- **Description:**

In this test, we login into an account to create a presentation and finally delete it to check that it remains in the bin.

- **Steps:**

STEP	RESULT
Visit the Genially web.	The page is displayed properly on the browser.
Login with a user.	The Creations dashboard is displayed.
Click the "Create Genially" button.	A list with the types of Genially that can be created is displayed.
Click the "Presentations" option.	The Presentations templates dashboard is displayed.
Click the "Basic Presentation" option.	A window with the template preview is displayed.
Click the "Use this template" option,	A list with the pages of the template which can be selected.
Click the "Select all" checkbox.	All the pages are selected.
Click the "Add" button.	The Genially presentation is created and displayed.
Click the Genially logo.	The Creations dashboard is displayed, with the Basic Presentation.
Move the cursor over the Basic Presentation and click the three dots icon on the top right corner of the box.	A list of options is displayed.
Click in the "Delete" option.	A confirmation window is displayed.
Click in the "Delete" option.	The Creations dashboard is displayed, without the Basic Presentation.
Click in the "Bin" option of the side menu.	The Bin dashboard is displayed with the deleted Basic Presentation.

2. FUN001_CP02 Publish

- **Type:** Regression.
- **Priority:** High.
- **Browser and Operative System:** Google Chrome and Windows 10.
- **Pre-conditions:** A verified account already registered on the app.
- **Description:**

In this test, we login into an account to create a presentation and publish it to check that it has been published properly.

- **Steps:**

STEP	RESULT
Visit the Genially web.	The page is displayed properly on the browser.
Login with a user.	The Creations dashboard is displayed.
Click the "Create Genially" button.	A list with the types of Genially that can be created is displayed.
Click the "Presentations" option.	The Presentations templates dashboard is displayed.
Click the "Basic Presentation" option.	A window with the template preview is displayed.
Click the "Use this template" option,	A list with the pages of the template which can be selected.
Click the "Select all" checkbox.	All the pages are selected.
Click the "Add" button.	The Genially presentation is created and displayed.
Click the "All Set!" button.	A window with the Publish options is displayed.
Click the "All Set!" button in the new window.	The Genially is published and the window now shows three options "Present", "Share" and "Download".
Close the window with the "X" button in the top right corner.	The window is closed and the presentation is displayed. The "All Set!" button was replaced by "Present" button
Click the Genially logo.	The Creations dashboard is displayed, with the Basic Presentation.
Move the cursor over the Basic Presentation.	A list of icons is displayed in the top. Now that the Genially was published it should have five icons, three more than unpublished ("Present", "Share" and "Download")

3. FUN001_CP03 Duplicate a Genially

- **Type:** Regression.
- **Priority:** Medium.
- **Browser and Operative System:** Google Chrome and Windows 10.
- **Pre-conditions:** A verified account already registered on the app.
- **Description:**

In this test, we login into an account to create a presentation and duplicate it to check that it has been copied properly and both remains.

- **Steps:**

STEP	RESULT
Visit the Genially web.	The page is displayed properly on the browser.
Login with a user.	The Creations dashboard is displayed.
